

Assume that the augmented matrix of the system of linear equations is given as follows:

$$\left[\begin{array}{ccc|c} 2 & 1 & -3 & 2 \\ 2 & -3 & 1 & 10 \\ -2 & 1 & 1 & -6 \end{array} \right]$$

Find the solution of the above system.
Choose the correct option.

- ☐ $x = t + 2, y = 5, z = t$
- ☒ $x = t + 2, y = t - 2, z = t$
- ☐ None of the given options
- ☐ $x = -2t, y = 5 - t, z = -t$
- ☐ $x = -t, y = t - 5, z = -1$
